

Harsh Parmar

Front-end Developer

Surat, Gujarat, 395004 | +91 9898236835 | harshparmar.dev@gmail.com

Career Objective

Aspiring Front-end developer and Flutter developer with UI/UX skills. Completed significant projects demonstrating proficiency in Flutter, Firebase, and frontend technologies. Seeking an internship in computer science fields, including UI/UX design, frontend web development, or Flutter development, to apply my skills in creating user-centric, innovative digital solutions.

Education

Bachelor of Technology in Computer Science and Engineering

2023 - Expected: 2026

Parul University, Vadodara, Gujarat

- Current GPA: 8.5/10
- Relevant Coursework: Data Structures Algorithms, Mobile App Development, Web Technologies

Diploma in Computer Engineering

2023

Gujarat Technological University, Ahmedabad, Gujarat

- Achieved 8.32 CGPA and First Class with Distinction

Internship Experience

Intern - Flutter Developer

June 2022 – May 2023

OPUS Technologies, Surat

- Developed a cross-platform mobile application using Flutter and Firebase.
- Implemented front-end UI components and back-end functionalities, enhancing user experience and data handling.
- Collaborated with a development team to design, develop, and deploy new features, ensuring smooth performance.
- Gained practical experience in full stack technologies, contributing to the complete project lifecycle.

Projects

Towed | Flutter, Firebase

- Developed a mobile application to help users locate towed vehicles.
- Implemented real-time database functionality.
- Reduced vehicle location time by 50% for users.

IRCTC Mobile App Redesign | UI/UX, Figma

- Conducted user research and created intuitive wireframes to enhance user experience.
- Redesigned interface resulting in a 30% improvement in task completion time.

Real-time Chat Application | Flutter, Firebase

- Built a scalable chat app supporting multiple users and real-time message synchronization.

Website Clones | HTML, CSS, Bootstrap

- Engineered pixel-perfect, responsive clones of Netflix and Amazon landing pages.
- Optimized for mobile responsiveness, achieving a 90% similarity score with the original websites.

Certifications

- Internship Certification in Flutter Full Stack Development, by OPUS Technologies, Surat. (Completed: May 2023)
- Cisco NetAcad Certification in Python Programming, by Cisco. (Expected: December 2024)
- NPTEL Computer Networking Certification, by IIT, Kharagpur. (Completed: April 2024)

Skills

- **Frontend:** HTML5, CSS3, JavaScript, SCSS.
- **Framework:** Flutter, Bootstrap, Tailwind CSS.
- **Programming Languages:** Dart, Java, Python, C/C++.
- **Tools & Technologies:** VS Code, Figma, Framer.
- **Databases:** MySQL, Firebase.
